

water efficiency is a way of life

Beverly Hills Water Tracker Announcement

MAJOR MWD PIPELINE REPAIRS PROMPT CALL FOR CONSERVATION OF WATER NOVEMBER 6 – 8, 2023

As crews from the Metropolitan Water District of Southern California (MWD) plan repairs to a pipeline that delivers water to Beverly Hills, water customers across the Beverly Hills service area are being asked to **conserve water from November 6th to November 8th, 2023.**

Now that work is set to begin on the MWD pipeline impacting Beverly Hills, the City will be utilizing water supplies from its existing reservoirs and from its own water treatment plant while MWD's work is performed.

During the three days, the City requests customers to refrain from outdoor watering and conserve water indoors as much as possible.

For additional water wise tips, please visit bhsaves.org. For more information, please call Beverly Hills Public Works Customer Service at 310-285-2467 or email askpw@beverlyhills.org.

California Native Plant of the Month

Dudleyas are one of the largest group of native California succulents. They vary in shape, size, and flower color and are usually under 4 inches until they flower. They are easy to grow and make excellent accent plants. Surround them with rocks and make sure they have good drainage. And watch the hummingbirds that come to visit.
